CENTRE EMILE BERNHEIM IN 2019

1.1. MISSION STATEMENT

Centre Emile Bernheim is one of the oldest research centres at SBS-EM. It was founded in 1951 as Centre Emile Bernheim d'Etude des Affaires, thanks to the impetus of Emile Bernheim, an industrialist with a broad and generous vision of the role of business in society.

Its first bylaws stated that its main aim was "to tighten the links existing between the University on the one hand and industrial, commercial, banking and other companies and their professional groups on the other hand, with the double objective to bring to the business community the support of scientific research."

Emile Bernheim later entrenched his support to CEB and specified his vision in his will. The will assigned to CEB a visionary mission: "To seek the conditions for a lasting social peace, supported by an equitable distribution of profits and by the harmonious cooperation of the economic forces involved." It featured a list of questions that were to be addressed by CEB: "the reform of firms' structures; consultation within companies; the security of workers' livelihoods; the greater solidarity to be established between the various sectors of the economy; and all other topics that business life can spark now and in the future." More generally Emile Bernheim's will stressed the importance of working beyond disciplinary boundaries, undertaking research aiming at better understanding conflicts in order to promote peace, and encouraging individual vocations, especially for the youth.

To this day, Centre Emile Bernheim has aimed to fulfil the mission assigned to it by Emile Bernheim while respecting his vision. Centre Emile Bernheim performs fundamental and applied research in all the fields of management science and encourages multidisciplinary research. Multidisciplinary research is key at CEB with members having degrees in fields as diverse as management, business, art history, economics, history, philosophy, psychology, or sociology.

We believe that free inquiry, academic freedom, and research exchange are the best way to generate insightful research on the topics defined in Emile Bernheim's will, at the interface of business, economics, and the social sciences in general.

We contribute to the Solvay Brussels School of Economics and Management in several ways. First, as a research centre, we conduct research and are therefore in line with the mission of the university, and hence SBS-EM's. Our members are engaged in research and as a result increase knowledge in their respective fields, blending all types of methods, ranging from qualitative to quantitative and experimental. Their results are published as articles in scientific journals, books, reports or cases studies. The centre maximizes the publications' visibility by disseminating a working paper series and a post-print series.

CENTRE EMILE BERNHEIM IN 2019

Second, we contribute to the visibility of the school in the general public. We organize regular and one-off events to disseminate the results of the research performed by our members, with a focus on topical societal and policy issues. We give interviews in the press and the social media to maintain an interface between academic research and society as a whole.

Third, and this is a consequence of being part of a university following the Humboldtian model, our research is directly integrated in the education our members provide to students at all levels of education (bachelor, master, PhD, executive education, and in-company training).

Our interaction with society is the first dimension we want to be known for. We want to be a research centre recognized for performing relevant, innovative, creative, thought-provoking and original research and making it accessible to a wider audience. The second dimension is our interaction with business, broadly defined, and society. The two dimensions are in line with Emile Bernheim's vision, by "bring[ing] to the business community the support of scientific research" and studying the means to bring a "harmonious cooperation of the economic forces."

1.2. POSITIONING

The raison d'être of Centre Emile Bernheim is to provide an environment as auspicious as possible to a free and independent research, because we view research freedom as the best way to achieve the goals that have been bestowed on us. **This encompasses four key dimensions :**

1. We want to provide the human resources to allow researchers to focus as much as possible on their research. This means that we aim to provide adequate administrative support.
2. We want to help researchers find the financial means to perform their research. Providing administrative support goes in that direction. We want to go further by sharing knowledge, know-how, and opportunities, encouraging joint projects and applications.
3. We want to encourage interaction between our members. In particular, we want to encourage interactions between researchers involved in various disciplines.
4. We want our members to maintain international outlooks and networks. We invite foreign researchers at various stages of their careers, encourage researchers to participate in international projects, and thrive to attract international doctoral students.

As a prerequisite to those dimensions, we view maintaining respectful and supportive relationships between our members an essential aspect of Centre Emile Bernheim. We draw a strict line between emulation on the one hand and competition or rivalry on the other.

CENTRE EMILE BERNHEIM IN 2019

Our key performance indicators reflect our objectives in terms of contribution to science and to dissemination of knowledge: **The following list may be viewed as our key indicators.**

- As a research centre, the number of scientific publications represents an important indicator. Quality is highly debated, CEB follows the SBS-EM journal list in their assessment.
- Scientific articles are not necessarily the most suitable format for the research conducted by our members. Books are a valuable means to accumulate and disseminate knowledge. The number of books published by our members is therefore another indicator of performance.
- Because training new researchers is a way to contribute to future research, the number of defended PhDs and the number of completed doctoral trainings are relevant indicators.
- Organizing, or presenting at, scientific events, workshops and conferences represent another key performance indicator.
- As part of our mission to disseminate research, we consider that the number of events targeting a wider audience is a useful indicator.
- Likewise, we aim to increase our visibility on the media and social networks. We therefore consider that the number of press articles and interviews as an indicator of our performance.
- We consider that the basic service that a research centre can provide its members is to organize research seminars. The number of research seminars organized during a given year is therefore also an indicator of performance.
- Ultimately, to perform our mission better and increase the scope for collaborations, we aim to increase the size of the centre. The number of its members is an indicator, although our capacity to grow will depend on the support that we receive from the faculty.

1.3. CONCRETE OBJECTIVE GOALS

Our concrete objectives are therefore the following :

1. Maintain an environment propitious to research and encourage interactions between the members of the research centre, paying particular attention to the number of seminars organized.
2. Maintain or increase the level of publication.
3. Maintain or develop further an international outlook and foster the international network of the centre and of its members.
4. Increase interactions with a broader audience and therefore increase our presence on the social media.

3. SEMINARS, CONFERENCES, DOCTORAL COURSES AND PHD THESES AT CEB IN 2019

3.4. MANAGEMENT CAFÉ

In October 2015, CEB launched the **Management Café**, a series of thematic informal meetings, which transpose to management topics the concept of the "cafés philo". The idea is to foster a debate in a friendly and relaxed "café" atmosphere around the experience of a practitioner and the insight provided by the research of a member of CEB. The topics are relevant to anyone with an interest in business and organizations. Anyone with an interest in business and economics is invited to attend. This innovative activity is sponsored by the Bernheim Foundation.

During the year 2019, three Management Café took place at **L'Atelier en Ville** (Place Stéphanie 6, Bruxelles) and **Aux Compagnons** (Silversquare Triomphe - Avenue Arnaud Fraiteur 15-23, Bruxelles) and welcomed around 30-40 persons each time. Topics were diverse. This activity is in French.

February 20

La finance peut-elle rendre le capitalisme plus responsable ?

De plus en plus de financiers adoptent des stratégies "éthiques" ou "responsables". Des fonds d'investissement sélectionnent les entreprises sur des critères qui vont au-delà des profits. Mais cette finance responsable a-t-elle un impact? Est-elle rentable?

With **Etienne de Callataÿ** (Cofondateur de Orcadia Asset Management), **Hugues Pirotte** (Professeur de finance au Centre Emile Bernheim, Solvay Brussels School of Economics and Management, ULB).

Moderation **Vincent Giolito** (Chercheur au Centre Emile Bernheim, Solvay Brussels School of Economics and Management, ULB).

3. SEMINARS, CONFERENCES, DOCTORAL COURSES AND PHD THESES AT CEB IN 2019

At **Aux Compagnons** (*Silversquare Triomphe - Avenue Arnaud Fraiteur 15-23, Bruxelles*).

June 12

Que vaut un diplôme sur le marché du travail aujourd'hui?

Un bon diplôme est la clé pour accéder à un bon job : étudiants, parents, employeurs et politiques en sont convaincus. Mais est-ce si vrai? Quelle confiance accorde-t-on aujourd'hui aux diplômes? Lorsqu'on cherche un travail, comment présenter ses diplômes et ses compétences dans un CV?

With **David Goldenberg** (Fondateur et Président, CVTrust), **Ilan Tojerow** (Professeur d'économie à Dulbea et au Centre Emile Bernheim, Solvay Brussels School of Economics and Management, ULB).

Moderation **Pierre-Guillaume Méon** (Directeur du Centre Emile Bernheim, Solvay Brussels School of Economics and Management, ULB).

3. SEMINARS, CONFERENCES, DOCTORAL COURSES AND PHD THESES AT CEB IN 2019

At **L'Atelier en Ville** (*Place Stéphanie 6, Bruxelles*).

September 25

L'autodétermination salariale : de l'utopie à la réalité.

Dans ce débat, nous proposons d'y aller fort et d'ouvrir la boîte de pandore des décisions salariales. Jusqu'où peut-on vraiment aller si on veut y mettre plus de collectif et de transparence ? Si ça marche avec les salaires... *the sky is the limit !*

With **Isabelle Vandenbroucke** (HR Manager d'Oniryx), **Geoffroy Fauveaux** (Fondateur et Gérant d'Oniryx), **Pierre Dubruille** et **Johan De Beer** (Seniors Consultants au CFIP qui accompagnent des organisations en matière de développement de l'intelligence collective).

CONFERENCE COMPLEMENTARY CURRENCIES AND SOCIETAL CHALLENGES

NOVEMBER 21-22, 2019

RESEARCH ASSOCIATION ON MONETARY INNOVATION AND
COMMUNITY AND COMPLEMENTARY CURRENCY SYSTEMS

This conference aims to **gather researchers and practitioners to explore and debate the potential of complementary currencies for sustainable development and socio-economic resilience**. We believe that the topic is one that is predestined for cross-disciplinary research and for thinking beyond established boundaries. We invite conceptual and empirical submissions drawing on a range of theoretical perspectives and diverse methodologies to explore complementary currencies, including researchers working on cryptocurrencies.

CONFERENCE DIVERSITY IN ORGANIZATIONS

NOVEMBER 14-15, 2019

3. SEMINARS, CONFERENCES, DOCTORAL COURSES AND PHD THESES AT CEB IN 2019

What diversity dimensions are relevant at the workplace? How do organizations manage diversity and inclusion, and how are they perceived internally and externally? Do various employees truly embrace a culture of inclusion and fully understand what diversity & inclusion means? What organizational processes might unintentionally hamper inclusion? What can your managers do to more effectively manage team diversity and reap its benefits?

This conference will provide the opportunity to network and collaborate with attendees. Our aim is to build bridges, not only between academics, but also between practitioners and academics, as we believe that only together, we can bring about change that truly matters.

5.2. Organizations of Conferences

Brière M., Financial Risks International Forum, <http://risk2019.institutlouisbachelier.org>, March 2019, Paris, France.

Organisé chaque année à la Chambre de Commerce et d’Industrie de Paris, le Financial Risks International Forum est une manifestation réunissant professionnels et académiques du monde entier sur les thèmes d’actualité de l’industrie Banque/Finance/Assurance/Gestion d’actifs. L’objectif est de présenter des travaux de recherche d’excellence et de faciliter les échanges entre les chercheurs et les professionnels. Cet événement accueille plus de 600 participants dont les plus grands scientifiques des universités européennes, américaines et asiatiques.

Celik P., Diversity in Organizations: Exploring new horizons together, Solvay Business School, 14-15 November 2019, Brussels, Belgium.

What diversity dimensions are relevant at the workplace? How do organizations manage diversity and inclusion, and how are they perceived internally and externally? Do various employees truly embrace a culture of inclusion and fully understand what diversity & inclusion means? What organizational processes might unintentionally hamper inclusion? What can your managers do to more effectively manage team diversity and reap its benefits? This conference will provide the opportunity to network and collaborate with attendees. Our aim is to build bridges, not only between academics, but also between practitioners and academics, as we believe that only together we can bring about change that truly matters.

De Meulemeester J.L., Penser la Science – Séminaires Ilya Prigogine, L'économie en crise(s)?, “A-t-on tiré les leçons de la crise de 2008 ?”, Avril 2019, Brussels, Belgium.

Dans ce séminaire, les orateurs ont cherché à rendre compte des causes de la crise économique et financière débutée en 2007-2008, pourquoi les économistes ne l'ont (ou ne l'auraient) pas vue venir, et ce qui a changé suite à cet épisode dont on n'est peut-être pas encore sorti : quels changements en termes de politique économique, de référentiel intellectuel, et quels changements dans la recherche et l'enseignement dans les facultés d'économie et de gestion.

De Meulemeester J.L., Penser la Science – Séminaires Ilya Prigogine, L'économie en crise(s)?, “Quelles relations entre économie et écologie ?”, Avril 2019, Brussels, Belgium.

Même si l'économie et l'écologie ont des points communs au niveau théorique, y compris dans la ressemblance de leur intitulé, elles montrent aussi des articulations problématiques. Cette conférence se propose d'explorer plusieurs de ces articulations en discutant différentes positions existantes. Seront notamment abordées les questions des écoles de recherche (économie environnementale & économie écologique), la croissance économique vs la protection de l'environnement, l'évaluation économique des politiques climatiques, ou encore l'utilisations de services écosystémiques.

Dissaux T., Complementary currencies and societal challenges: Crossing academic and practitioners knowledges/perspectives, 21-22 November 2019, Brussels, Belgium.

Complementary currencies are socio-economic innovations aiming to address societal challenges of social cohesion, economic inclusion and environmental preservation (Stodder, 2009; Joachain & Klopfer, 2014; Michel & Hudon, 2015, Sanz, 2016). This conference aims to gather researchers and practitioners to explore and debate the potential of complementary currencies for sustainable development and socio-economic resilience (Ulanowicz et al., 2009; Gregory, 2014; Graugaard, 2012). We believe that the topic is one that is predestined for cross-disciplinary research and for thinking beyond established boundaries. We invite conceptual and empirical submissions drawing on a range of theoretical perspectives and diverse methodologies to explore complementary currencies, including researchers working on cryptocurrencies.

Error Management.org., Academy of Management Annual Meeting, *Executive Error Management: Making Sense of and Acting upon Organizational Errors*, Professional Development Workshop, Organizers: Christoph Seckler, Leuphana U. Lüneburg, Vincent Giolito, Solvay Brussels School of Economics and Management, August 2019, Boston, US.

Errors can cause organizational failure. But how? And what can managers do to intercept and rectify errors before failure actually occurs? In this hands-on PDW at AOM annual meeting, participants will be able to receive feedback and exchange on their research from scholars experts in errors and error management.

Error Management.org., Academy of Management Annual Meeting, *Strategy and Leadership for Managing Errors in Organizations: What We Know, What We Should Know*, Showcase Panel Symposium, Organizers and co-chairs: Paul Verdin, Solvay Brussels School of Economics and Management and Peter F. Martelli, August 2019, Suffolk University, Boston, US.

What is the role of senior executives in detecting and managing errors, so as to avoid them actually turning into disasters or failure? What is required from top executives for effectively doing so – for example what forms of leadership make executive error management more effective? What is the impact of executive error management on strategy – for example how does it affect the dynamic capabilities of the organization, or even bring about a new understanding of strategy as learning? We are gathering a panel of highly experienced scholars representing several of the major research streams with the aim of fostering a rich trans-disciplinary discussion. We plan to reserve ample room for dialogue with the audience, of which practitioners and consultants should form a significant part.

Hassouni A., Spring Meeting of Young Economists (SMYE), April 11–13, 2019, Brussels, Belgium.

SMYE is an annual conference organized by the European Association of Young Economists. The conference aims at creating a forum in which nearly 200 young economists from universities around the world can meet, present and discuss their research in a relaxed yet constructive atmosphere. This year’s conference was organized by Ph.D. students and Postdoctoral researchers from Université Libre de Bruxelles (ULB). The conference was held at ULB and accounted 189 presentations. Also, four keynote speakers – Michael D. Bordo (Rutgers University), Paul Collier (University of Oxford), David K. Levine (European University Institute) and Erik Maskin (Harvard University) – shared their research and perspectives with the conference participants.

Hensmans M., Co-Chair (with Elizabeth Maitland) EIBA 2019 Track “Learning from History: Economic, Social and Political Lessons”, 13-15 December 2019, University of Leeds, UK.

While we may, indeed, live ‘in interesting times’, even a cursory examination of history reveals that businesses, governments and societies have often faced the challenges of geopolitical disputes, trade wars, antipathy to ‘outsiders’, rapid technological change, and normative shifts in the expectations of firms and the distribution of wealth. This track invites contributions that use history to: (1) question, augment or adapt international business theories; and/or (2) shed light on the tensions and opportunities for businesses operating internationally.

Hermes N., Conference Corporate Finance Day, University of Groningen (joint with Egle Karmaziene and Nassima Selmane), September 19th, 2019.

The objective of this one-day conference is to enable researchers in the field of corporate finance and related study areas to interact with each other and present their work in a stimulating academic and social atmosphere. Doctoral students who are in an advanced stage of their dissertations are also invited to present their research to colleagues and experienced scholars.

Van Haezendonck E. and M. Hensmans, Chair in Infrastructure asset management and lifecycle planning, VBO-FEB, 15 March 2019.

Given the low percentage of infrastructure spending (in % of GDP in particular) in Belgium, and the necessary catching up of our transport infrastructure, we hope with our research and together with our sponsors to support policy makers of various levels and in the three regions in Belgium towards a sustainable asset management framework. The objective of the Chair is the realization of an infrastructure asset management framework for the Belgian regions.

Our overall mission is to create a sustainable relationship between the Universities and interested partners in view of sustainable development of infrastructure in Belgium, with a focus on public infrastructure projects.

APPENDIX: The Doctoral Programme in Management Sciences of SBS-EM in 2019

Managers SBS-EM - ULB

Prof. François Rycx, Prof. Ariane Szafarz.

Objective

The Doctoral School in Management Science set up jointly by ULB (Solvay Brussels School of Economics and Management), ULg (HEC - School of Management) and UMONS (Warocqué Faculty) aims to offer high level training, in accordance with the most demanding international standards, combining mastery of theories and methods, innovation, critical thinking, group work and personal approach. The programme is organized around a general principle: the creation of value in an increasingly globalized world, as applied to the various fields of management: strategy, finance, marketing, production, information systems, organization, human resources and labor studies, etc.

Programme content

The programme is bilingual (French/English) and gives priority to international openness, scientific excellence, and innovation, as well as publication in scientific journals. The priority of international openness is fostered in particular by a policy of privileged partnership with certain foreign institutions: METEOR, the Research School of the Maastricht University School of Business and Economics, the Lille Institute of Business Administration, University of Lille 1, the management training and research unit of the University of Paris I Pantheon-Sorbonne.

The doctoral training programme offered by ULB, ULg and UMONS meets the essential conditions of specialization and integration of knowledge in a global economy. It is FNRS approved. It comprises a) a core curriculum aimed at ensuring a uniform skill base, encouraging knowledge among doctoral students and comparison of models, research questions and methods; b) a specialization programme comprising advanced classes and themed workshops in each of the six areas of management: international trade and development; finance and accounting; information systems, supply chain management; marketing and strategy; human resources and labor studies, organization; innovation and entrepreneurship. The Doctoral Programme

The Doctoral Programme in Management Science of the Solvay Brussels School of Economics and Management starts with a doctoral training in Management Science (60 credits - Graduate School ULB-ULg-UMONS) and is followed by the writing of a dissertation to obtain a PhD in Economics and Management.

In **2018-2019**, both programmes had a total of **45 enrolled students** (with **24 in doctoral training**).

The Doctoral Programme of the SBS-EM also aims to promote international collaborations including hosting renowned professors, establishing joint PhD, and encouraging stays of doctoral students in other universities.
